

# Mobile Operator Station T500

## Highlights

Blue Line's Mobile Operator Station T500 is designed for life science environments that require a configurable and light weight solution but also want the benefit of a powered mobile workstation. Cleanable with IPA wipe down and damp cloth.

Equip with one or two HMI/monitors, client, keyboard/mouse, scanner etc. and achieve greater productivity with Blue Line Mobile Workstation technology. Integrated battery with high 500Wh capacity for continuous productivity.

Best in class ergonomics and user satisfaction due to the stepless electric height adjustment via actuator supporting both seated and standing operation. Hygienic casters make it easy to move around as needed, always ready for use when needed.

Let us configure your mobile operation station according to your requirements.

Blue Line's modular design makes it possible to configure to specific needs in functionality, finish and environment. Get free advice from our experts and let us set up a Teams meeting for an online demo and Q&A. Benefit from our experience and knowledge based on numerous installations in biotech and pharmaceutical sites around the world.

- Mobile IT operation in life science environments
- Equipable with one or two HMI/monitors, client, keyboard/mouse, scanner etc.
- Electric height adjustment via actuator for both seated and standing operation
- Room for client and other equipment
- Powered by 100-240V AC or integrated battery with a capacity of 500Wh
- Display for battery power status
- Charge the battery by plugging in the 100-240V AC
- Hygienic casters
- Configuration according to your requirements

## Specifications

### Model Type

Mobile Operator Station

### Construction

Compact laminate

### Cleaning

Wipe down cleaning  
IPA 70% and damp cloth

### Casters

4 casters, 2 with brakes

### Cooling

Fanless

### Ingress Protection

IP20

### Environment

Operating temperature 0°C to +40°C  
Storage temperature -20°C to +60°C  
Humidity 10 to 90% @ 40°C (non-condensing)

### Certification

CE

### HMI

Equipable with one or two monitors

### PC/Client

Placed in the mobile operator station's compartment

### I/O

Customisable depending on client configuration  
USB  
GbE LAN  
Video Interface

### Work Surface

Polyrey laminate

### Height adjustment

Fixed height or electric adjustable (table height 83 to 120cm)

### Power

The trolley is powered either by 100-240V AC or the integrated battery  
The integrated battery has a capacity of 500Wh  
Battery status indicator - LCD display with remaining battery time

### Accessories Included

Bracket for single screen  
Power cable

### Accessories Optional

Option for dual screen bracket

### Dimension and Weight

H 123 x W 58 x D 62cm  
Weight 42kg without monitor and thin client

### Warranty and After Sales Support

Standard 1 year (optional 3 years)
